EDUCATION

Bachelor of Engineering in Computer Engineering

University Of Phayao | 2022 - 2026

Science-Mathematics-Computer Program

Nongphai School | 2019 - 2021

SKILLS

- **Front-end:** React, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS
- **Back-end:** Node.js, Firebase(NoSQL), MySQL
- **DevOps & Tools:** Docker, Git, GitHub
- **AI for Dev:** Gemini, ChatGPT, DeepSeek, Perplexity, Claude, MS Copilot, Ollama

OTHER SKILLS

- Figma, Canva, Miro
- Python, Java, C, C++

About Me

A Computer Engineering New Grad targeting Full-stack / Software Development. Proficient in building end-to-end applications using React, Node.js, and Firebase. As an AI-Augmented Developer, I leverage AI to accelerate coding and debug complex logic. Adaptable and eager to master new technologies to deliver scalable, high-performance software solutions.

EXPERIENCE

Internship Experience

System Engineer | AskMe Solutions & Consultants Co., Ltd.

- Designed Grafana monitoring dashboards to visualize real-time system performance and analyze data flow.
- Engineered automated workflows and integrated APIs via n8n, significantly reducing manual tasks and improving efficiency.
- Managed cloud-based network infrastructure and conducted system performance testing to ensure operational stability.

Project Experience

Online Store Web Application System For Grocery Shops

- Developed an end-to-end e-commerce platform featuring secure user authentication and real-time order tracking.
- Built a responsive Front-end (React, Tailwind) and architected a scalable Back-end (Node.js/Express, Firebase Firestore).
- Deployed the application via Firebase Hosting to ensure high-speed and reliable content delivery.
