EDUCATION

Bachelor of Engineering in Computer Engineering

University Of Phayao | 2022 - 2026

Science-Mathematics-Computer Program

Nongphai School | 2019 - 2021

SKILLS

- **Programming Languages:** JavaScript, HTML5, CSS3, Python, Java, C, C++
- **Database Management:** SQL, MySQL, MongoDB, Firebase (NoSQL)
- **Frameworks & Libraries:** React, Node.js, Express.js, Tailwind CSS, Bootstrap
- **DevOps & Tools:** Docker, Git, GitHub
- **AI for Dev:** Gemini, ChatGPT, DeepSeek, Perplexity, Claude, MS Copilot, Ollama

About Me

A motivated Computer Engineering graduate proficient in React, Node.js, and Docker. As a fast learner, I am adaptable and ready to embrace new technologies like Vue.js and GoLang to support team objectives. I actively leverage AI tools to optimize code, streamline debugging, and deliver efficient solutions. Driven to build robust systems and continuously learn from every technical challenge.

EXPERIENCE

Internship Experience

System Engineer | AskMe Solutions & Consultants Co., Ltd.

- Designed and deployed monitoring dashboards using Grafana to visualize real-time performance data for servers and network systems.
- Configured and maintained network infrastructure (Switches, Access Points, Routers), gaining a strong understanding of how data flows within a system.
- Developed a solid foundation in system architecture and server environments, providing a crucial advantage for deploying and maintaining secure web applications.

Project Experience

Online Store Web Application System For Grocery Shops

- Developed an e-commerce platform for grocery stores featuring user management, product catalogs, and real-time order tracking.
- Built a responsive Front-end using React.js, HTML, and CSS.
- Implemented a scalable Back-end using Node.js/Express.js with Firebase Firestore for real-time data synchronization.
- Containerized the application using Docker to ensure consistent deployment.
- Leveraged AI tools (ChatGPT, Claude) to optimize code structure and accelerate debugging.
